Main Page / Create Album

- This will be the first page displayed after a successful login
- A simple page for users to search for an album, as well as creating new albums.
- There is an option logout on the bottom.
- There will be a listview in the middle which will list out each album
- From the selected albums we will be able to edit them and view them individually
- Clicking an album moves to larger, single view
- Logout will return to the login page
